

The Center for True North® presents:

***Spiritual Adulthood***®

*~Gateway to Freedom~*

Mariangela's new book, **SPiritual ADulthood**® *~Gateway to Freedom~* is now available.

**SPiritual ADulthood** *~Gateway to Freedom~* addresses our desire for deep personal authenticity regarding who we are and why we are here. It inspires, invites and engages us to live lives of significance, freedom and bliss.

**SPiritual ADulthood** verifies that “we have spent lifetimes meandering about oblivious to our true identity and clueless about our significant place and purpose often feeling starved for a clear experience of truth and a palpable connection to our authentic essence selves and to all of creation.” This work encourages us “to embrace our significance and step up to our incalculable co-creative opportunities.”

In **SPIRITUAL ADULTHOOD** Mariangela reminds us that “we are encoded to graduate spiritually and that this encoding predates all emotional, societal, psycho-spiritual and religious grids.”

Mariangela further explains that “the truths encoded in us are so powerful they’ll reorganize every part of our being”...and that “as these codes are activated, we begin to reclaim our essence and experience quantum, full-spectrum transformation.”

In addition, she unflinchingly affirms that “the movement through the gateway to freedom is our evolutionary destiny. This destiny comprises our highest and boldest form of self-expression as well as our right to experience co-creative fulfillment and bliss. As we allow any chains that have bound us to dissolve, we become liberated, spiritually adult broadcasters of our cosmic heritage.”

In **SPIRITUAL ADULTHOOD** Mariangela entreats us to:

- *Reclaim our essence identity.*
- *Discover the four spiritual adulthood passkeys.*
- *Take extraordinary steps in the direction of dismantling the historical paradigm.*
- *Fully embrace our spiritual significance and profound purpose.*

She reminds us that “as spiritual alchemists that convert the dross within us into gold, we are destined to become the living, breathing embodiment of authenticity, freedom and celebration; the archetypes of a new earth reality.”
